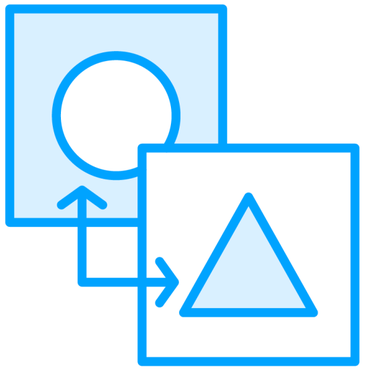
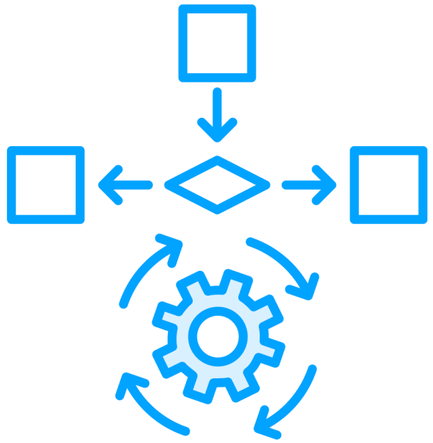
This course was created by using:

- Python 3.10
- VS Code 1.70
- Hugging Face Transformers 4.15
- Sentence-Transformers 2.2.2
- Pytorch 2.0.1

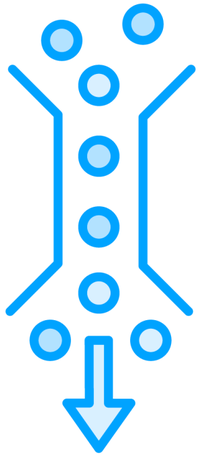
Introduction to Cross-Lingual Retrieval



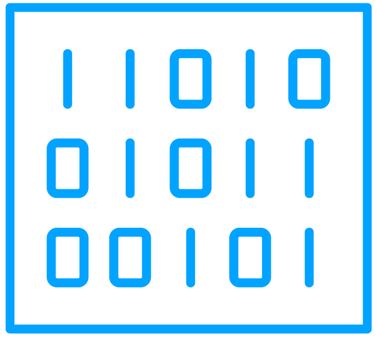
Cross-Lingual Retrieval



Machine Translation



Cross-Lingual Embeddings



Language Agnostic Representations

Implementing Cross-Lingual Embeddings

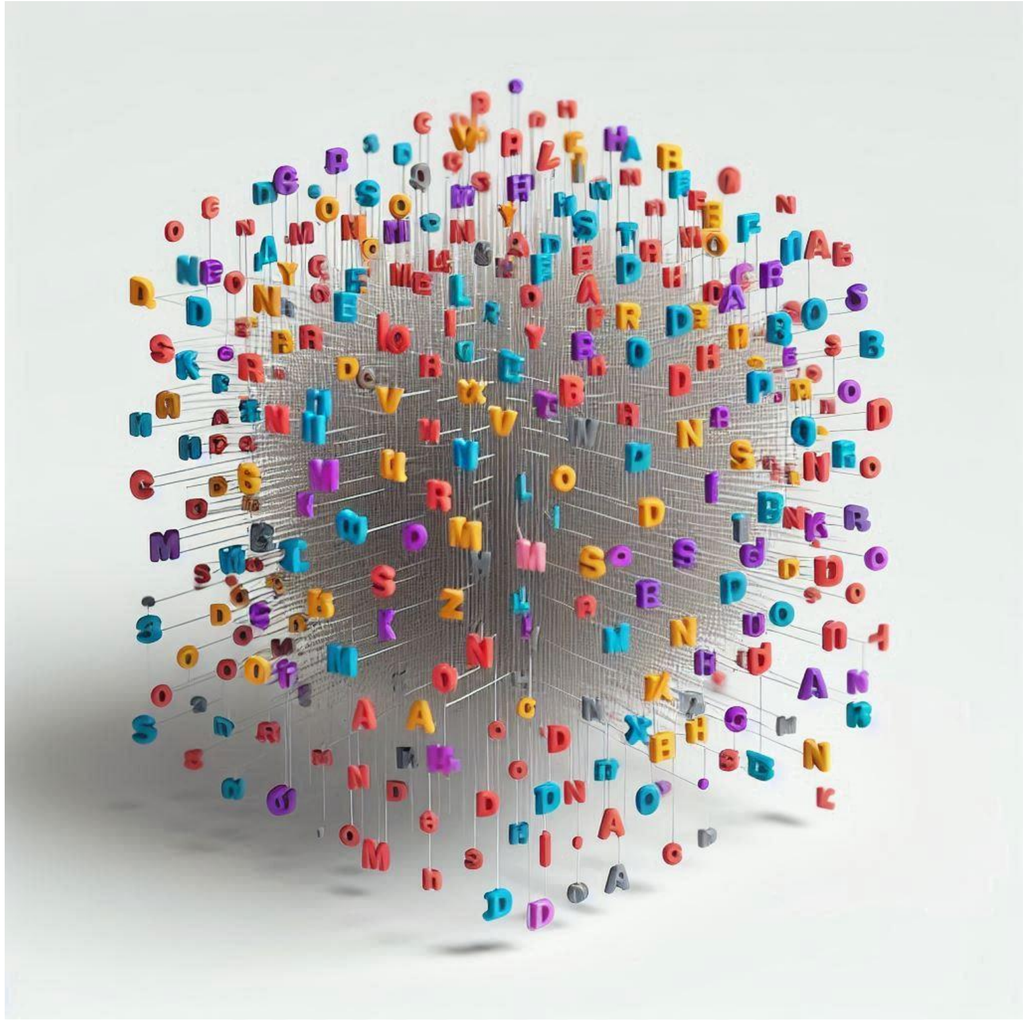


Image Created with Dall-E 3

Cross-Lingual Embeddings

Key Tools & Libraries

Building Cross-Lingual Pipelines

Building Language-agnostic RAGs

Language-agnostic Representations

Comparison with Other Techniques

Implementing Language-agnostic Models

Course Conclusion

Reach out on the Discussion tab if you have any questions for me!
